Passat. Think New.

The Passat is the talk of the town, and for good reason. Having won the highly coveted European Car of the Year 2015 accolade, the eighth generation is sure to turn heads. Now 20% lighter than its predecessor and featuring cutting-edge technologies, sophisticated styling and innovative assistance systems, the Passat is set to continue a 40-year legacy of success. With each new iteration and product improvement, it brings benchmark technologies and the perfect combination of elegance and dynamism to the luxury sedan segment.

Passat. New Attraction.

With new styling that includes shorter body overhangs and a dynamic silhouette, the Passat is as attractive as it is powerful.

The 110kW TSI Luxury DSG® is packed with state-of-the-art performance features, while the 162kW TSI Executive DSG® can reach 0-100km/h in an effortless 6.7 seconds. Using direct injection and turbocharge, the 2.0 TDI engines (available on the Luxury and Executive) offer a smooth and powerful 130kW performance with an impressive 350Nm pulling power and an economic fuel efficiency advantage. The Passat follows a pure design principle of contemporary style and understated confidence, while the tornado contours are accented by trapezoidal head and rear lights, creating a striking road presence.

A new inside to match the outside.

A longer wheelbase allows for more interior space and the Passat makes optimum use of it with new technologies. The electric seats with driver seat massage function, 3-zone climatic airconditioner, 519 litres of boot space and rear leg room contributes to a first-class journey of pure luxury and comfort. The premium theme continues with ergo comfort front seats that are extremely comfortable in both rows with ample legroom. The redesigned interior complements the sophisticated exterior — this is functionality at its most stunning.

Technology that is light years ahead.

The optional Active Info Display changes the entire appearance of the dashboard. With a 12.3" screen turning the instrument cluster into an interactive experience, the driver can customise the information that is displayed within the traditional speedometer and rev counter panel. From infotainment to satellite navigation and driver assist system warnings, the information most important to you is always displayed clearly and conveniently.

The 8" Composition Media touchscreen radio/CD with a colour VGA display comes standard, offering endless quality entertainment options. The car also allows you to connect your tablet to its infotainment system, as part of the Rear Seat Infotainment package, ensuring all-round satisfaction. It's not just the inside that's modern. Innovation continues below the bonnet, with sustainable BlueMotion TSI Engine Technology leading the Passat to higher fuel efficiency and reduced emissions without impacting on power and performance.

Active 12.3" interactive instrument cluster with customisable information being displayed.

The DynAudio Confidence Sound System with 10 speakers and an impressive 700W output is an outstanding optional feature.

Safety first.

Adaptive Cruise Control (ACC) automatically brakes and accelerates in a speed range set by the driver. When you need to come to a halt, the Passat will ensure you do so with utmost safety. The **City Emergency Brake (City EB)** function is a radar-based emergency braking system designed to help a driver avoid a low-speed crash or to reduce its severity.

Parking is swift and effortless with **Park Assist** which actively helps the driver with parallel parking and alley docking by using sensors.

An optional feature, the **Head-up Display**, projects relevant trip data conveniently in the driver's field of vision. Speed, traffic signs, assistance systems and other functions are displayed clearly and accurately.

Area view with four cameras located in the boot lid/tailgate, door mirrors and radiator grille, provides a 360-degree view around the Passat helping you manoeuvre in confidence in any direction.

Multi-collision braking triggers automatic controlled braking once an initial collision has been detected to prevent follow-on collisions with oncoming traffic.

Trailer Assist incl. **Park Assist** helps you reverse with a trailer attached more easily and accurately. The optical display visualises actual and possible steering angles in the instrument cluster with automatic reverse steering.

Enhance Excellence.

Safety and Security

- Parallel and Bay Park Assist with rear-view camera
- Adaptive Cruise Control and "Front Assist"
City Emergency Braking
- LED headlamps with Dynamic cornering light
- Area view
- Maneuver Braking feature for PDC and Parking Assist

The Passat 162kW Executive.

The Passat 162kW TSI Executive model is a class of its own featuring a sporty sophistication with interior touches to match the exterior treatment. The high-impact look is complete with 18" "Marseille" alloy wheels, sculptured front grille, crafted front and rear bumpers and side skirts. Adaptive Chassis Control (DCC) and an electronically controlled limited slip differential (XDS) come standard, so whatever the road conditions, you can be in charge of the suspension behaviour.

R-Line styling can also be extended to the Luxury with the optional R-Line Package and 18" Dartford alloy wheels.
