Vehicles

The icon, evolved

The new Transporter improves on its award-winning predecessors in every way that matters.

It delivers a larger load compartment and heavier payload – making light work of substantial loads without compromising on manoeuvrability.

A larger cabin and new digital cockpit make for a more comfortable driving experience.

Bigger loads, better performance

A more spacious load compartment, higher maximum payload and increased towing capacity mean the new Transporter is ready to do some serious work. The increased length makes it easy to stow Euro Pallets.

Increased load compartment of **5.8 m³** (**6.8 m³** on longer wheelbase model)

Up to **1.28 tonnes** maximum payload.

Towing capacity of up to **2.8 tonnes**.

Comfort reimagined

Every detail of the New Transporter interior has been improved to maximise spaciousness and functionality, in line with the ever-evolving Volkswagen standard for quality and comfort.

Stepping into the cabin feels both familiar and revolutionary. It exemplifies the ethos of the current range of Volkswagen Commercial Vehicles.

wireless App
Connect with
Apple CarPlay/
Android Auto

A future-worthy cockpit

The new Transporter will launch with a digital cockpit landscape as standard, designed for seamless functionality with all the necessary information being easily visible on one viewing axis.

Driveability enhanced

Despite its increased load capacity, the standard New Transporter remains under 2.0 metres in height for easy access to conventional multi-storey car parks. While a turning circle of only 11.9 metres makes light work of tight bends and manoeuvres.

TDI models will come with front-wheel drive. The 4MOTION all-wheel drive system is available as an option for the TDI versions from 125kW.
