All space, all style

You're looking for a sleek and sophisticated SUV that makes cross-country road trips feel luxurious. A spacious, seven-seater family car that looks as impressive as it is smart. The new Tiguan Allspace gives you functionality with flair, with its cutting-edge interior cabin and sculpted contemporary exterior. Sharp enough to cut through the competition, the new Tiguan Allspace comes standard with advanced IQ.DRIVE* technologies.

Allspace: 1.4 TSI 110kW DSG®
Life: 1.4 TSI 110kW DSG®
Style: 2.0 TSI 132kW 4MOTION DSG®
R-Line: 1.4 TSI 110kW DSG® and
2.0 TSI 162kW 4MOTION DSG®

*IQ.DRIVE features are optional across the Life, Style and R-Line models.

Impeccable design

Take a seat in the Allspace's expertly crafted cabin and elevate your driving experience. A fusion of class and comfort, the new Tiguan Allspace is designed for your pleasure with:

- "Vienna" leather upholstery
- Electric leather seat adjustment (Driver only) and lumbar support
- Wireless charging
- Wireless App-Connect
- Harman Kardon sound system
- Ambient lighting
- "Discover Pro" navigation system
- A multi-colour Digital Cockpit Pro

*Some features are optional across the Life, Style and R-Line models.

More to meet **the eye**

Curated for your convenience, the Tiguan Allspace comes standard with chrome finishes and alloy wheels, accented by its striking horizontal chrome strip and Volkswagen badge.

Sharp, bold lines contour the length of the Tiguan Allspace's exterior, highlighting its distinct, sophisticated design, seamlessly fused with body-coloured bumpers, door handles and exterior mirrors.

The epitome of refinement - choose from the Life and Style models which sport a black protective trim on the lower front and rear bumpers, side sills and wheel arches.

More room **to roam**

German-engineered with meticulous attention to detail, every inch of the new Tiguan Allspace is designed for your comfort. Details like fold down rear seats and an optional panoramic sunroof demonstrate careful consideration when creating the interior cabin, awarding the Tiguan Allspace more space than any other of its make.

More than luxury finishes, the Tiguan Allspace is the product of impeccable design and functionality.

Power in motion

Utilizing 4MOTION® technology and other operational safety systems, the new Tiguan Allspace puts your safety first. Constantly monitoring your driving conditions, the Tiguan Allspace can detect even the most minimal wheel slip, automatically adjusting your power in a matter of milliseconds. With Hill Descent Control and torque distribution to all four wheels, Volkswagen gives you the confidence to conquer any terrain.

Effortless engineering

The new Tiguan Allspace leads the way for the smart SUV. Bold, intuitive and sophisticated, the Tiguan Allspace makes driving effortless with optional keyless entry and an electric tailgate. Lavishly appointed with Park Pilot, parking has never been easier.

Activated when in reverse, Park Pilot uses ultrasonic sensors to monitor the front and rear of the vehicle, offering guidelines and warnings of obstructions near the vehicle. Make your Allspace your own with Driver Profile Selection. Choose between one of four modes (Individual, Comfortable, Sport and Eco) to customize the allspace's settings to your specifications offering unique experience.

Connect to a **greater drive**

The new Tiguan Allspace's infotainment system puts the power in your hands. Experience the convenience of Volkswagen's "Composition Media", which features an 8-inch high-resolution display, USB interface for iPod/iPhone, Bluetooth, and MP3 compatibility. Optimizing your drive, Tiguan Allspace's optional "Discover Pro" offers a 9.2-inch touchscreen premium satellite navigation system with Gesture Control, Bluetooth, and USB interface for iPod/iPhone.

App-Connect and Digital Cockpit Pro takes you further through seamless technological integration. Connecting compatible smartphones to the Allspace's touchscreen display, you can access selected apps, stream music and navigate your route at the tap of a finger. Combined with the sleek design of the Digital Cockpit Pro, you can fully customize your display from infotainment to navigation or vehicle statistics.

Safety without **compromise**

The new Tiguan Allspace is built to go the distance. With expert German engineering, your safety is ensured without compromise throughout the body of the SUV. The safety cage is designed to protect passengers in the event of a front, rear, or side impact, along with advanced thermo-formed steel B-pillars offering reinforcement on top. The adaptive airbags are designed to adjust to crash severity, with special door sensors that deploy Curtain Protection® airbags in case of a side impact.

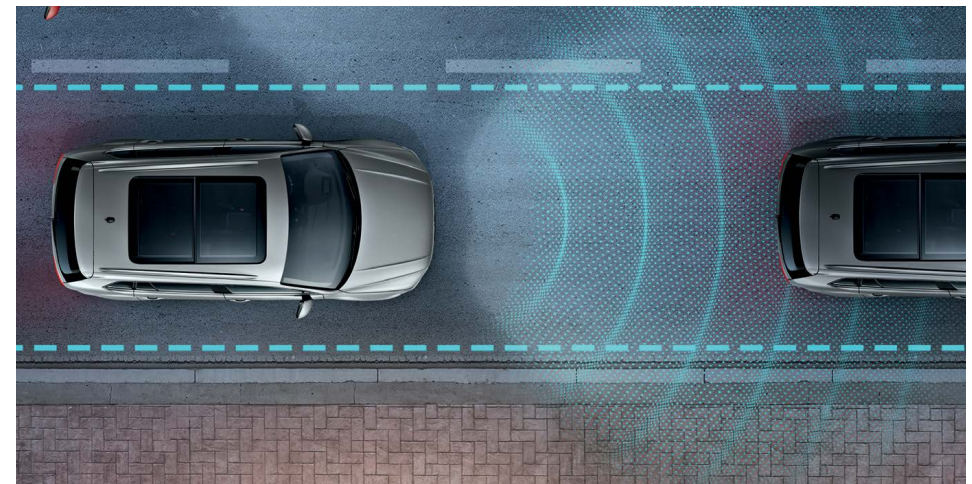

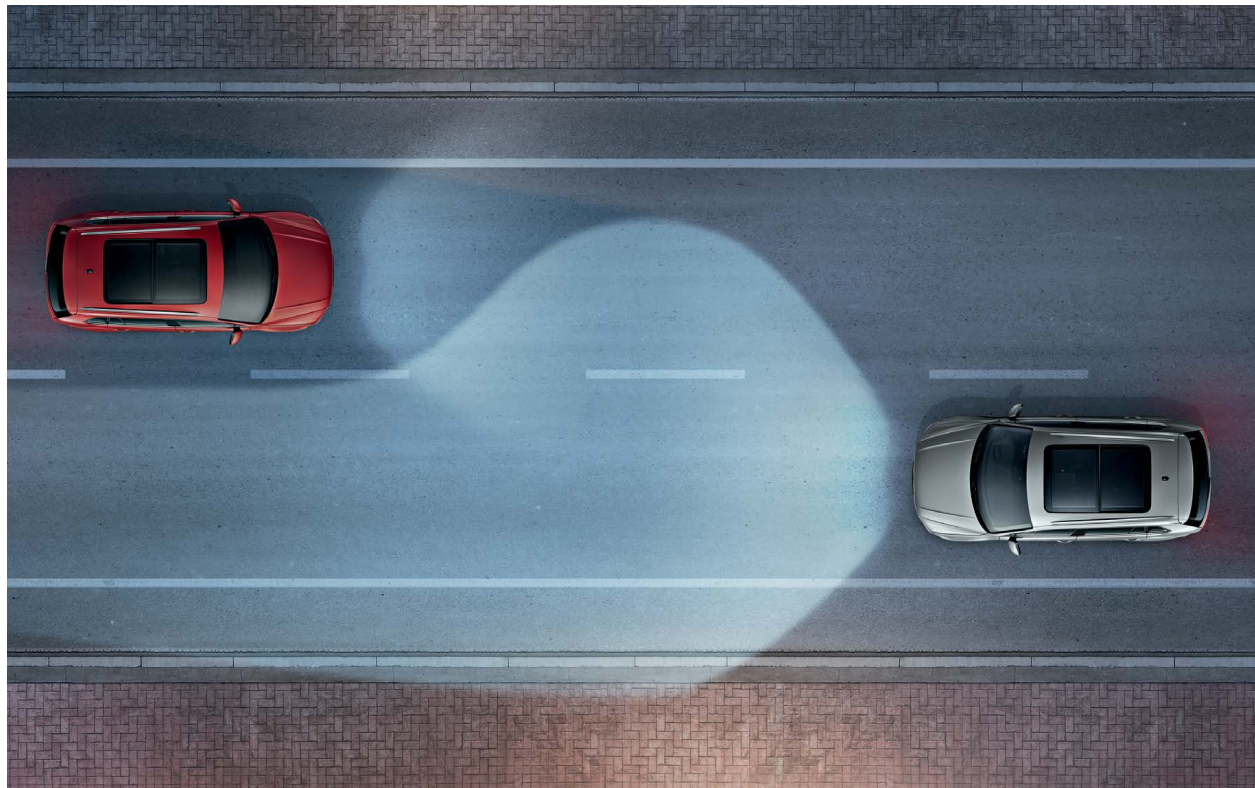

The Tiguan Allspace knows when its time to take a break. Utilising Head-up Display, the new Tiguan Allspace notifies the driver via an acoustic signal and a visual message displayed on the instrument cluster. A step further, the Rest Assist fatigue detection system senses fading concentration levels by intelligently measuring pedal and steering wheel use. Designed to keep you alert and maintain confidence on the road, the Tiguan Allspace displays speed, traffic signs, assistance systems, and other functions throughout your journey.

Adaptive Cruise Control (ACC) may be added as another innovative piece of technology. When ACC is activated, the vehicle automatically brakes and accelerates at a speed range set by the driver. If another vehicle approaches, the ACC brakes the car to the same speed and maintains the pre-selected distance.

Connect to a **greater drive**

When it comes to next-level tech, the new Tiguan Allspace has got you covered. Fully equipped with IQ.DRIVE and We Connect Go technologies, the Tiguan Allspace is always ahead of the curve. This smart SUV comes with a range of IQ.DRIVE* technologies including Adaptive Cruise Control, Autonomous Emergency Braking with Front Assist system, Area View Camera and Park Assist, Rear-view Camera, Trailer Manoeuvring System, IQ.LIGHT, Travel Assist and Navigation with voice control, putting you on the road to autonomous driving.

Know your ride, inside and out. Using We Connect Go, the new Tiguan seamlessly connects your smartphone to your Volkswagen via Bluetooth using the DataPlug, keeping you in tune with your Tiguan. Compatible with Android and iOS devices, the We Connect Go app shows you your logbook, fuel monitor, driving style analysis and driving statistics, services and schedules, breakdown assistance and parking space locator.

*IQ.DRIVE features are optional across the Life, Style and R-Line models.
