It's the Taigo

Volkswagen's expressive SUV.

The Taigo is dedicated to all those who, like you, follow their own path, who wish to affirm their style, those who move forward instead of following, those who make the ordinary even more extraordinary every day.

With a petrol engine and 7-speed DSG transmission, the Taigo is designed with the contemporary driver in mind. The SUV is available with a 1.0 TSI 85kW engine across three models. Its Start-Stop with regenerative braking, a low-emission TSI engine, and Eco Function* progress Volkswagen's journey towards eco-friendly cars. Taigo is the ultimate cross between style and practicality. Now available in Life, Style or R-Line models.

Let's go – in the Taigo.

*Standard with the R-Line model

Design with **distinction**

Outstanding character and dynamism– anyway you look at it.

As an SUV with a coupé-like shape, Taigo ticks all the boxes, and none, simultaneously. A side view of the Taigo is characterised by defining lines guiding the eye seamlessly from front to rear exterior. The stylish honeycomb grille connects the matrix LED headlights framing the front of the car and its expansive width. Light strips at both the front and rear exterior make it almost impossible to ignore its design-orientated appearance. The logo projection lighting epitomises the car's modern expression giving it its Volkswagen personality.

The Taigo takes your day-to-day a step further with a panoramic sunroof* that invites your surroundings inside. With the choice of having the sunroof tilt up or slide open fully, you can personalise your natural lighting and air inflow. The car's presence on the road is further strengthened by roof rails spanning the length of the roof offering sports enthusiasts the convenience they're looking for. With a spacious boot of 440 litres and rear seats that can fold 60:40, the Taigo allows for maximum storage with the seats up or down.

*Optional with all models

Design features of the Taigo:

- Sporty, coupé-like shape
- Honeycomb grille
- IQ.LIGHT LED matrix headlights and LED fog lights
- Alloy wheels 6J x 16"/ 6.5J x 17"

Tech to **move you forward**

Every drive is a revelation in the Taigo.

Style meets functionality with the Taigo's interior. Standard features include a soft-touch dashboard, leather multifunctional steering wheel, digital cockpit, and ambient lighting. Stay connected when you're on the move with App-Connect. Adding to its practical edge, are the Taigo's Voice Control, Navigation System, Wireless phone charging, and keyless entry – all of which are optional on all models. The digital Infotainment system with a 6.5-inch radio display on the Life model and an 8-inch radio display on the Style and R-Line models, and Beats® sound system* round off your customizable driving experience.

*Optional with Style and R-Line models

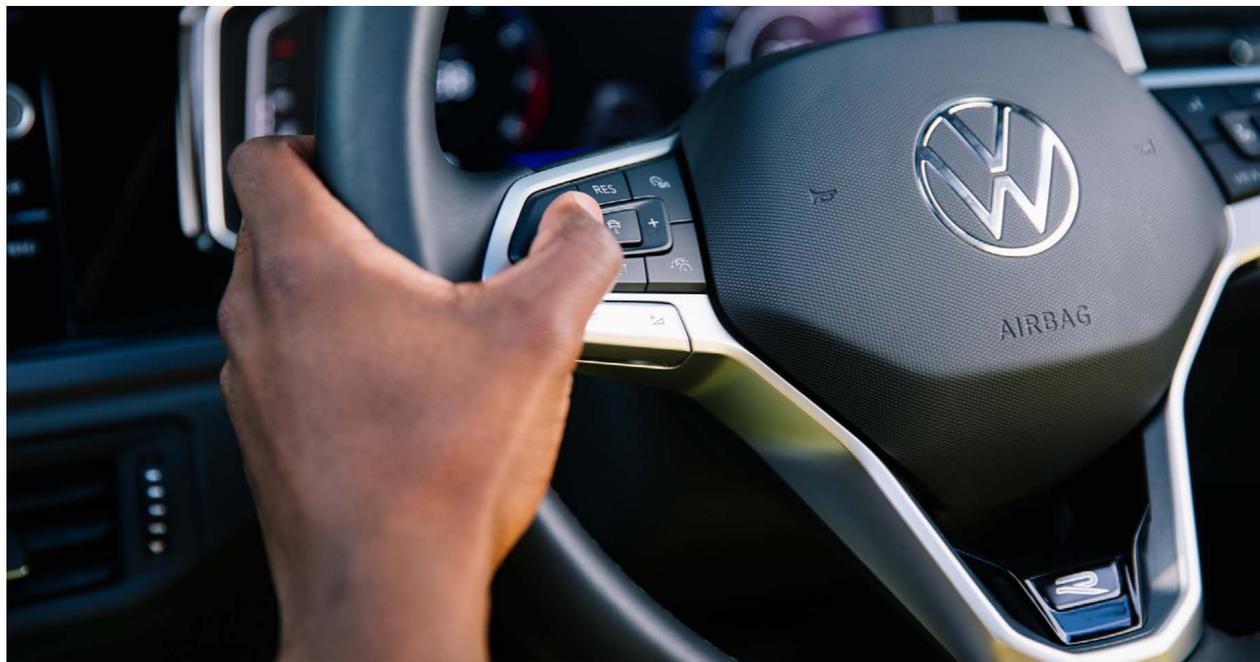

IQ.Drive and safety

Taigo's got your back while you venture forward.

IQ. Drive's intuitive technology* includes features like Adaptive Cruise Control (ACC). ACC can maintain a set distance from the vehicle in front by automatically braking and starting up again when sitting in traffic, making it a driver's best friend. ACC can also work in conjunction with Lane Assist to form Travel Assist, making your journey safer.

*Optional with Style and R-Line models

Safe driving is also enhanced by Autonomous Emergency Braking, Front Assist, Side Assist and Fatigue Detection. Park Assist is available for that final stage of the drive, by measuring whether a parking space is big enough and then steering you into it.

Trim levels to suit your lifestyle

Life

- ✓ Alloy wheels 6J x 16"
- ✓ Leather-wrapped multi-function steering wheel with shifting paddles
- ✓ Active Info Display - Basic
- ✓ LED headlamps for low beam and high beam with separate daytime running light
