Level up **your drive**

**From the inside out, the
new Polo is designed to up
your game.**

Everything about the new Polo will give you the drive to go further. The sharpened body design and IQ.LIGHT matrix LEDs reflect confidence in true Polo style. The fresh design and new exterior features are just the start of the new Polo's innovation. As you look closer, the IQ.DRIVE features and advanced interior digitalisation reveal the intelligence behind confident driving.

The look of **confidence**

A stylish exterior that's as eye-catching as it is smart.

From the first look, it's the striking LED light strip on the front grille connecting the headlights that characterise the updated design of the new Polo.

Along with the sharpened lines of the new chassis, fresh front and rear bumper design, every element captures the innovation the new Polo represents, while remaining true to its timeless style. Subtle touches like the two-part taillights and animated indicator function only add to the considered design of the new look.

With IQ.LIGHT matrix LEDs in the headlights and taillights, the new Polo gives you the capabilities to light the way with confidence. IQ.LIGHT with Dynamic Light Assist makes night driving safer and more comfortable. Using individual LEDs that keeps the main beam on constantly, it adjusts your headlights away from oncoming drivers and prevents potential accidents. Just another nod to the next-level innovation that the new Polo brings with it.

Confidence just **got smarter**

Put intelligent driving in the front seat with IQ.DRIVE

Take your driving to a new level with IQ.DRIVE features*. With Travel Assist, your Polo brakes, accelerates and steers automatically (within system limits). The touch-sensitive steering wheel responds to touch, ensuring that your hands are always on the steering wheel while IQ.DRIVE is active.

Front Assist sensors located in the front grille detect obstructions in front of the car and automatically activate the car's brakes. Prevent potential collisions with Front Assist and enjoy safer driving.

Adaptive Cruise Control not only maintains your set speed but also adapts to the speed of the traffic ahead by braking and accelerating (within system limits). All you have to do is set the pace and enjoy the journey.

Park Assist with rear-view camera allows you to get into any parking space by automatically adjusting your steering. The rear-view camera detects any obstacles behind you making parking safer and easier.

*All IQ.DRIVE features are optional on the Polo Life, R-Line and GTI models.

Interior innovated

Stay connected at every turn with a fully digital cockpit, connected infotainment system, App-Connect functionality and more.

The fully digital standard 8-inch cockpit changes the way you drive with an interactive and convenient display. An optional 10.25 inch digital cockpit display is available on the Polo Life and standard on R-Line and GTI models.

The new Polo is fitted with the advanced generation MIB3 touch-screen infotainment system and App-Connect, keeping connectivity at your fingertips and putting you at the top of your game.

Your kind of drive

Polo

The new Polo comes standard with a 70kW engine and 'Basket' seat trim. Add your own flair to your drive with optional Essex 15" alloy wheel and additional smoker's package features.

Polo Life

Look as confident as you feel in the Polo Life, available with a 70kW, 85kW and 85kW DSG engine. Comes standard with 15" Essex alloy wheels, Lava stone black dashboard trim and 'Slash' seat trim covers. This model ups your driving game with IQ.DRIVE features including:

- Adaptive Cruise Control
- Cruise control and speed limiter
- Multifunction Sensor
- Pedestrian Monitoring
- Front Assist

Polo R-line

The sporty new Polo R-Line model with a 1.0 TSI 85kW DSG® engine comes standard with grey anodized matt dashboard trim and 16" Valencia alloy wheels. Optional features include the Beats sound system, inductive charging and IQ.DRIVE features.

Polo GTI

The Polo GTI is here with a 2.0 GTI 147kW DSG® engine, "Art Velour" Titanium black seat finishes, 17" Milton Keynes alloy wheels, twin tail pipes, front and rear spoilers along with the classic GTI insignia. The performance-driven design allows drivers to shift into a new mode of boldness with the leather-wrapped multi-function touch steering wheel.

It is also equipped with optional features like IQ.DRIVE and Beats sound system which makes the Polo GTI, the ideal compact performance car of a new generation.
