Safety and Hygiene

We understand that safety and hygiene is of utmost importance, and have therefore introduced various safety and hygiene practices:

- Course numbers have been significantly reduced
- Participant temperatures will be checked upon arrival
- Hand sanitizer station available at the entrance to the building and throughout the facility
- A COVID-19 questionnaire will be required to be completed by all participants on arrival
- Masks will be required by all participants and instructors
- The building will be completely sterilized on a regular basis
- All surfaces and touch points will be regularly disinfected throughout the day
- All bathrooms are equipped with anti-bacterial soap
- Lunch will be delivered in sealed individually plated meals
- The vehicles will be sanitized throughout the day and there will be hand sanitizer in each vehicle

Safety Driving Course

Start this full-day course with a lesson in vehicle dynamics, this is followed by a practical on the skidpan where you put this theory into practice as you experience emergency simulations. The defensive driving module ensures greater awareness when faced with day-to-day driving situations. Learn how to predict and identify hazards and escape routes, in order to place your vehicle in the safest possible position on the road. The Hi-Jack Prevention will help with important information to either avoid the situation or survive the potential possibility of being hijacked.
