Disclaimer

1. Dimensions, capacities and abilities apply to standard vehicles.
2. Actual consumption will vary with vehicle loading, driving style, climatic and road conditions.
3. This information was effective as at 01 August 2019 valid for model year 20 and is subject to change without notice.

Vehicle Tare mass given at 90% tank filling without driver (75kg). Selected optional extras increase the unloaded weight of the vehicle.

*Fuel Consumption and Carbon Dioxide Emission Figures

The figures reflected were obtained in accordance with prescribed uniform measuring standards (SANS 20101: 2006 / ECE R101: 2005 in their currently applicable versions) under laboratory type conditions. The measuring standards are stipulated by law. They do not apply to a specific vehicle and are provided to enable comparison between different vehicle models tested using the same uniform measuring standard. The values are accordingly not necessarily representative of real-life driving conditions. Factors such as driving style, vehicle load, road conditions, tyre size, traffic and ambient conditions may result in different fuel consumption and carbon dioxide emission levels to those achieved under the test parameters referred to above. More details are contained in the owner's manual.
