12-year anti-corrosion warranty	X

Disclaimer

*A combination of leather and high quality durable materials

**All diesel vehicles require low sulphur grade diesel of 50 ppm or lower.

Fuel consumption and CO2 emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version).

The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models.

Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values.

Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle.

Dimensions, capacities and abilities apply to standard vehicles.

The above information was effective as at **July 2022** and is subject to change.

Upgrade your **comfort zone**

The Caravelle 6.1 is an ambitious all-rounder that earns its keep – and then some.

A spacious seven seater, its bold restyling includes new head-turning colours, finishes and an updated grille design. Suited for power, the 146kW Highline's seven-speed DSG® makes for truly intelligent transmission. Plus, the new electromechanical power-steering means state-of-the-art driver assist systems. Navigate any journey with its advanced Digital Cockpit that delivers more connectivity than ever before. Performance, comfort, and style – the Caravelle double ticks all the boxes. 4MOTION® all-wheel drive double clutch gearbox DSG, Hill Descent Assist, Hill Hold Assist and mechanical differential lock drive provide impressive off-road mobility.

Caravelle 6.1

Highlights

Innovative technology

Now with new electromechanical power-steering for impressive benefits.

Safety

Peace of mind with state-of-the-art intelligent driver assist systems.

Performance

A permanently engaged four-wheel-drive system with 4MOTION®.

Connectivity

New Digital Cockpit with high-resolution LED display and Discover Pro navigation system.

Steer with **power**

Navigation becomes seamless with new electro-mechanical power-steering.

Not only is it more fuel efficient, but it also opens up access to numerous new driver assist systems. Because it also transmits steering commands to the wheels more directly, it makes the Caravelle 6.1 more agile and precise. The introduction of the optional second-generation chassis control system (DCC) provides for seamless driving profile selection. The range of familiar slip and braking control systems has been expanded through the addition of the XDS function, which improves the handling and traction characteristics. All-in-all upgrading the Caravelle's high level of comfort even more.

Safety made **smart**

Driving the Caravelle 6.1 offers high levels of safety and peace of mind, thanks to a host of standard and optional driver assist systems.

Whether you require assistance when parking, driving, changing lanes or towing a trailer, the latest range of Assists monitor the situation, taking preventative action in critical situations. These systems include Park Assist, Trailer Assists, Lane Assist, Hill-hold Assist, Crosswind Assist and Tyre Pressure Monitoring. These driver assist systems make the Caravelle 6.1 one of the safest and easiest multi-purpose vehicles to drive on the market.

Engineered **for any terrain**

Power alone is not enough. 4MOTION® all-wheel drive makes sure you can always work or play wherever, whenever. Using an electronically controlled multi-plate clutch on the rear axle, it automatically adjusts the power transmission to your current driving conditions. A mechanical differential lock supports the 4MOTION® technology, making take-offs on difficult terrain less stressful. Overall, the system's lightweight design provides the foundations for an optimum driving response and a dynamic ride.

The future **displayed**

Experience digital progress up-close in the Caravelle 6.1 state-of-the-art infotainment systems and the Digital Cockpit, with its many useful functions.

A hi-res 10.25 inch LED display delivers bright colours and extremely high-contrast imagery. The Digital Cockpit is operated via the touch display of the infotainment system and via the leather-trimmed multi-function steering wheel. A large second navigation map can be positioned on the Digital Cockpit – meaning both maps can be zoomed in at different distances.

The Caravelle 6.1 is also equipped with We Connect Go mobile online services. Once you download the We Connect Go app, you'll be able to access features like MyVolkswagen and Trip Monitor, from your smartphone. Staying in touch is also always within reach with the inductive smartphone charging function.

Distinctive **design**

The Caravelle 6.1 boasts an updated eye-catching, head-turning look.

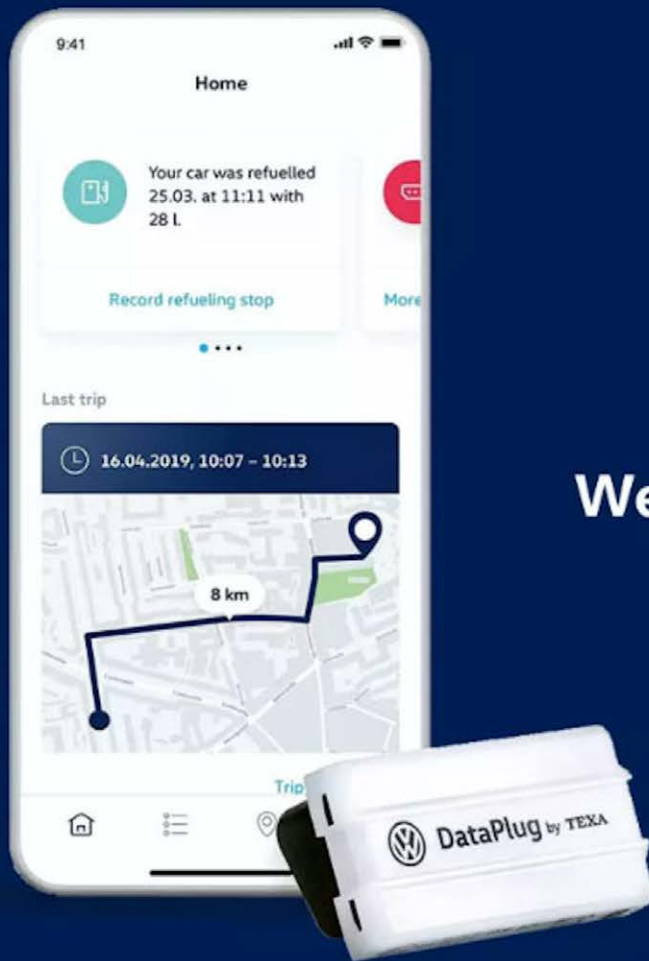

The new, sharp front design features a larger grille, colour-coded bumper, chrome detail and LED headlights with new alloy wheels, new colour palette and a new LED tail light cluster providing a striking rear signature.

Perfectly **networked**

The new range of technologically-advanced systems will help you find your way quickly and easily, from the latest Digital Cockpit with a premium high-resolution multi-function display to the intuitive touchscreen radio and Discover Pro navigation system. Its powerful USB charging port type C ensures uninterrupted connectivity.

We Connect Go®

Stay in touch **Stay in tune**

Get ready for every drive to be more digital, closely integrated and comfortable.

A wide range of services give you quick access to the Caravelle 6.1 – conveniently via your smartphone. We Connect Go includes various vehicle reports, useful tools for service planning and a breakdown call. App Connect lets you display your smartphone apps on the touchscreen of your infotainment system – meaning you can now seamlessly link between your phone and your Caravelle.
