The Tiguan

The Tiguan is more than just a car. It's more than technology. It's more than beauty. It's a vehicle that's ready for adventure. The Tiguan is made for wherever life may take you. From the eye-catching design and exceptional versatility, to the assurance that it can take on everything your lifestyle demands.

With three trim levels and five engine options, there's a Tiguan for everyone. Bold contours and a distinctive profile make it difficult to take your eyes off the Tiguan. Even more awaits you on the inside with innovative connectivity features and modern design accents.

Tiguan.
Get used to more.

Turning gears, wheels **and heads**

The Tiguan is built with bold character lines that accentuate its progressive design, creating a masculine aesthetic. Longer, wider and lower, the Tiguan's striking SUV-design is sportier and more powerful-looking with sharp lines and flared wheel arches. Body-coloured bumpers, door handles and exterior mirrors fuse effortlessly and all models have a black protective trim on the lower front and rear bumpers, side sills and wheel arches.

The Tiguan's distinct body contours are a common feature used to draw the eye along the car's exterior - leading to its striking horizontal chrome bars and proud Volkswagen badge. Chrome finishes can be added with the optional Chrome and Shine Package - keeping the Tiguan firmly on and off the road, on alloy wheels that come standard across the range.

Luxury comes **standard**

The Tiguan's premium design is more spacious than the previous generation.

Every bit of the vehicle has been optimised to create more space. From the inside, it's easy to understand why the Tiguan is about more than just contemporary urban refinement, it's an SUV that is more than qualified for city driving and relaxed highway cruising.

Exceptional comfort levels combine with cleverly thought-out design to create a cabin that's comfortable and functional. The Tiguan is the epitome of top-end design and spaciousness. It's ideal for both city driving and off-road adventures - all in the comfort of a responsive and functional cabin.

The three-spoke ergonomic leather-covered steering wheel, cruise control, comfortable seats and seat configuration means it ticks all the boxes.

Smooth travelling **on and off the road**

With the optional 4MOTION® Active Control, the Tiguan can be adjusted to different road conditions and terrain. Its bold and masculine design visually expresses its off-road character. Power is part of every detail, all you need to do is buckle up for the adventure.

State-of-the-art **technology**

**When it comes to innovation
and technology, the Tiguan
has everything you need.**

Keyless entry and an electric tailgate make loading and driving seamless and effortless.

Parking has never been easier. Park Pilot activates when the car is in reverse and uses ultrasonic sensors to monitor the front and rear of the vehicle. It offers guidelines on the camera screen and also warnings to the driver when the car is getting close to another object.

Tailor-make any journey. Driver Profile Selection enables different settings that will change both the Tiguan's performance and the driver's experience – all at the turn of a dial. Quickly and easily select one of four driving modes and change between Normal, Comfortable, Sport or Eco mode.

Infotainment packages

Central to driver and passenger enjoyment is Volkswagen's "Composition Media" infotainment system (standard on Comfortline and Highline).

It features an 8" high-resolution display, USB interface for iPod/iPhone, Bluetooth, SD Card and MP3 compatibility. The infotainment system offers a practical, personalised and versatile user experience – perfect for cross-country road trips or around-the-corner school runs.

"Discover Pro" pushes the envelope with a 9.2" touchscreen premium satellite navigation system with DVD drive, Gesture Control, Bluetooth and USB interface for iPod/iPhone.

App-Connect links compatible smartphones to use selected apps on the touchscreen display of your Volkswagen, from streaming music to navigation using mobile maps.

Active Info Display turns your dashboard into an interactive cockpit. The Active Info screen allows you to customise the display from infotainment to navigation or vehicle statistics.

Safety first

Safety always

The Tiguan is the embodiment of German engineering, which makes it one of the safest SUVs in its class. The safety cage has been designed to protect passengers in the event of a front, rear or side impact. In addition, advanced thermo-formed steel B-pillars offer strong reinforcements on top. The adaptive airbags have been engineered to adjust to crash severity and special door sensors will deploy Curtain Protection® airbags in a side impact.

The Head-up Display allows you to keep your eyes on the road by projecting relevant trip data conveniently in the driver's field of vision.

Speed, traffic signs, assistance systems and other functions are displayed clearly and accurately. A groundbreaking feature designed to keep the driver alert during long trips.

The Head-up Display warns when a break is needed via an acoustic signal and a visual message displayed on the instrument cluster – just another example of what makes the Tiguan smarter than most SUVs. The Rest Assist fatigue detection system senses fading concentration levels by intelligently measuring pedal and steering wheel use. Adaptive Cruise Control (ACC) can also be added as another innovative piece of technology.

When ACC is activated, the vehicle automatically brakes and accelerates in a speed range set by the driver. If another vehicle approaches, the ACC brakes the car to the same speed and maintains the pre-selected distance.

Adaptive Cruise Control with Front Assist (forward collision warning)

High Beam Control "Light Assist"

Head-up Display

Constant 4MOTION® moving forward

The Tiguan does all the thinking and calculations in split seconds. 4MOTION® actively secures vehicles by working in conjunction with the other operational safety systems to monitor driving conditions constantly. Hill Descent Control and torque distribution to all four wheels means safety comes first – whether you're driving on or off road.

Upon detection of even the most minimal wheel slip, the power is automatically adjusted and deployed to the necessary wheel in a matter of milliseconds.

Automatic Profile

Tailor-make any journey using the Driver Profile Selection. It enables different settings that will change both the Tiguan's performance and the driver's experience – all at the turn of a dial. Quickly and easily select one of the five driving modes and change between Normal, Comfortable, Sport or Eco mode.

Snow

Systems are configured for slippery road surfaces (snow, ice). Four-wheel drive responds more quickly.

Off-road driving profile

Four-wheel drive is active, systems are configured for uneven road surfaces and poor traction, and ABS+ are activated (further driving profiles such as Eco, Sport, are not possible).

Off-road driving profile (individual)

Hill Descent Control, audio warnings and lights can be deactivated. The driver has the option to customise his off-road driving experience in this mode.

Taking you places **on and off the map**

The Tiguan has a lot to give.

Take off for your next destination in a Tiguan and you'll have more turbocharged fun getting there. Fold down the rear seats and you'll see how versatile it is. Add the latest touchscreen system, and you've got a great view, no matter where you are.

Tiguan **5-seater**

The 5-seater Tiguan gets you to where you need to be, comfortably and in style.

The Trendline features 17" Montana alloys, while the Comfortline receives 17" Tulsa alloys and the Highline sports standard 18" Kingston alloys.

Next level **styling**

Lighting the way are stylish LED headlights with daytime driving lights (standard excluding Trendline). Efficient and powerful, they complement the front fog lights with static cornering lights.

R-Line

It's up to you to decide how dynamic you want your Tiguan Allspace R-Line to be. The R-Line model features lowered sports suspension meaning great cornering, or for even more control over your drive, you can specify optional Dynamic Chassis Control for a choice of Sport, Comfort or Normal suspension settings. Distinctive R-Line styling includes 20" 'Suzuka' alloy wheels, uniquely shaped body-coloured front and rear bumpers, 'C' signature 'Gloss Black' front air-intakes and body-coloured side skirts. Inside, the sporty refinement continues.

Luxurious and thrilling

The 2nd generation Tiguan is longer and wider with 615 litres of boot space (1,655 with folded seats).

Elsewhere in the cabin, clever design and functionality go hand in hand. Sliding rear seats with a 40/60 split-fold offer versatility for passengers and luggage. For ultimate carrying capacity, both rear seats can be folded flat to reveal space just right for carrying a bulky load. The Tiguan even features load-through provision for the rear central armrest, making it a breeze to accommodate longer items such as fishing rods or hockey sticks while maintaining two rear outer seating positions.

Standard and optional features

Safety

- Electronic Stability Control
- ABS (Anti-lock Brake System)
- EDL (Electronic Differential Lock)
- Multi-collision brake system
- Auto-hold function by means of electronic parking brake, including hill-hold assist
- Rest Assist fatigue detection
- Power steering
- Curtain airbags (front and rear including side airbags)
- Front airbags for driver and passenger
- ISOFIX attachment points for two rear child seats

Interior

- Cruise Control with speed limiter
- Height- and length-adjustable centre armrest in the front, with storage box, 2 air vents, 2 cup holders and 12-volt socket on the rear
- White instrument lighting (dimmable)
- Heat-insulating windshield
- Mobile phone interface with inductive charging function

Exterior

- Front fog lights and cornering lamp
- Roof rails
- Side mirror housings and door handles in body colour
- Radiator grille frame and slats in chrome
- LED tail lights

Optional

- 8.0" Touchscreen Radio
"Composition Media" with MP3/WMA compatibility, 8 speakers, Bluetooth, SD Card, USB interface also for iPod/iPhone and AUX-IN jack
- 9.2" Touchscreen high-end Satellite navigation "Discover Pro" with DVD drive, Bluetooth and USB interface also for iPod/iPhone including AUX-IN jack
- App-Connect
- Seat upholstery in "Vienna" leather*
- Smokers Package
- 230V socket in luggage compartment
- Panoramic sunroof (tilting and sliding)
- Mechanically swivelling electrical tow bar
- Electric tailgate and Keyless entry
- Ambient Package
- Park Assist with rear-view camera
- Adaptive Cruise Control with front assist
- Active Info Display
- Head-up Display

* A combination of leather and high-quality durable material
